# HOROSCOPE

## APRIL 18 - APRIL 24, 2024

**ARIES (Mar. 21- April 20)**  
Mercury's retrograde through your sign continues to provide illumination on what needs to stay and what needs to go particularly in your relationship patterns. There's a sense that you're on the verge of a big breakthrough. It comes at the weekend with the 'lucky stars' union between Jupiter and Uranus coupled with a power move between the Sun and Pluto.

**TAURUS (Apr. 21- May 21)**  
The last time Jupiter and Uranus smooched in your sign was 1941! This is a slice of celestial extraordinaire guaranteed to lift your sights so you can express your fullest potential. Taurus season begins on the 19th with the Sun quickly plugging into passionate Pluto. Nothing is by halves with this lot upstairs.

**GEMINI (May 22-June 21)**  
Taurus season brings the Sun to a reflective sector of your skies. Less talking, more thinking. This isn't such a bad thing as high impact aspects are downloading. Give yourself time to assess what you really want as this year is all about manifesting those perfect opportunities.

**CANCER (June 22-July 22)**  
It probably seems you're being winkled out of your comfort zone as life is changing in unexpected ways, pulling you in new directions and closing old doors. The speed and intensity of events is startling, yet true friends reveal themselves to be surprisingly supportive of you breaking with the past.

**LEO (July 23-Aug 22)**  
You appear to be at a junction point which asks for crucial decisions. Obvious choices are easy to make. However you're also encountering closure on elements of your life to which you've been hugely attached. Letting go in order to allow the new is a necessary step.

**VIRGO (Aug. 23-Sept. 23)**  
Few people realise how much you've been longing for a new pathway in life. As you're so good at maintaining the status quo you make it look as if you're perfectly happy to preserve it. So it will come as a shock to some that you're embracing change as your new best friend.

**LIBRA (Sept. 24-Oct. 23)**  
As the Sun enters your zone of financial relationships and you're edging closer to the grand union of lucky Jupiter and breakthrough Uranus in the same area you feel there's a lot opening up. Easy does it. As a Libra you want to move into these opportunities with the minimum of upheaval and disruption.

**SCORPIO (Oct. 24 - Nov. 22)**  
April's celestial earthquakes are still pulsing and as a Scorpio you're just about to move into Taurus season which hosts the spectacular twosome of Jupiter and Uranus in the relationship zone of your chart. Time to shift position in order to take advantage of what's on offer in settings ranging from business to personal.

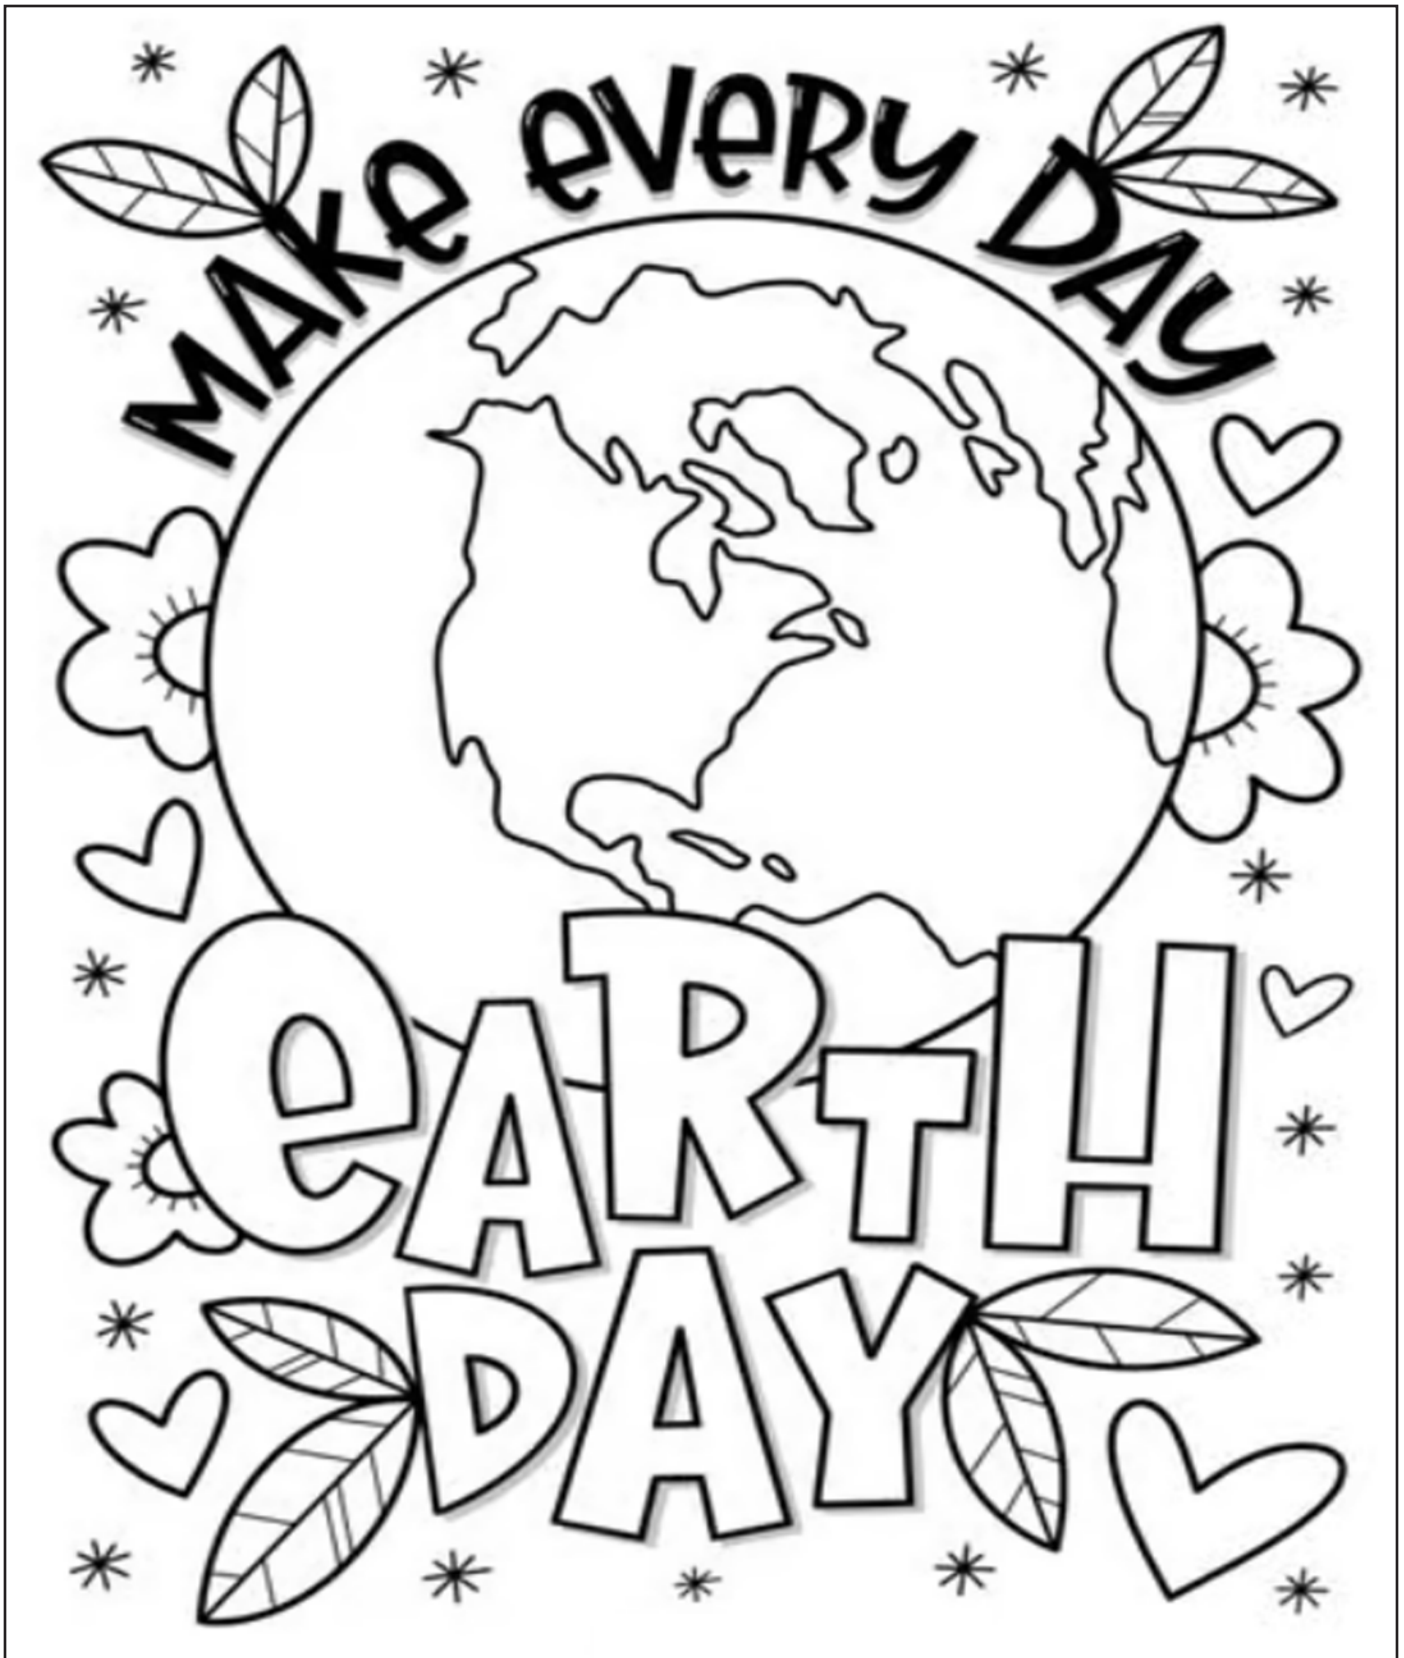

**SAGITTARIUS (Nov. 23-Dec. 21)**  
This is take-off time as your ruling planet Jupiter is gearing up for cosmic fusion with ground-breaking Uranus over the weekend of the 20th/21st. Meanwhile you're examining your options – some of which hold a huge amount of promise. The trick is to organise yourself so that you have a carefully prepared space which provides maximum support for their success.

**CAPRICORN (Dec 22.- Jan. 20)**  
As the Sun takes up residence in your happy place and the celebratory vibes of Jupiter and Uranus can be heard in the distance you need to spend this week in the zone of quiet confidence. You've come a long way. Many Capricorns have felt they have been asked to move mountains this month, let alone climb them! There are more hikes ahead. But for now, enjoy the view!

**AQUARIUS (Jan. 21 -Feb. 19)**  
The celestial background to April has pushed you into your discovery zone – some of which has been thrilling, other parts not so much! Now that the Sun is moving into the most personal angle of your chart the big requirement is to feel at home within yourself and also where you live. However, many water bearers are feeling the call to move something very different as Jupiter gets together with change-maker Uranus. It is a case of 'whereto now?'

**PISCES (Feb. 20-Mar. 20)**  
As a Pisces you are one of the most adaptable signs – able to fit in wherever you find yourself. However, the emphasis now is on finding like-minds as you are realising that you do in fact need the stimulation and affirmation. This requires you to reach out in new directions and to seek out 'the thinkers' who reflect your own values. Once you do, you'll see they were looking for you too.

**CARDINAL**

**Name of venue:** Cardinal Atlantic City

**Where are you located?** 201 S New York Ave in Atlantic City.

**Hours of operation:** We are open Wednesday through Sunday 11 am to 10 pm and are closed on Monday and Tuesday

**Parking tips:** Free parking is available in Cardinal's lot, located on S. New York Avenue between Hayday Coffee and Cardinal, on the same side of the street!

**What does your venue specialize in?** Cardinal's New American menu pairs innovative dishes with craft cocktails in a warm, welcoming setting. In the heart of the Orange Loop neighborhood, Cardinal is located steps off the Atlantic City Boardwalk on New York Avenue.

**What is the current reason one MUST come to your venue?** Owner and Executive Chef Michael Brennan's approach to familiar dishes will delight any guest, spanning from brunch, lunch, and dinner to happy hour, catering, and private events. Come as you are to enjoy our spacious indoor dining room or cozy outdoor patio. At Cardinal, we make every visit memorable—whether it's a drink with friends at the Lounge Bar, an intimate dinner, an afternoon with family in the Garden, or your wedding day.

**What is your secret favorite that the crowds have yet to discover?** Cardinal brunch hits different when it involves a stroll by the Bloody Mary cart! Give your weekend that extra pep in its step with the American Breakfast, Southern Benedict, Crispy Tuna Burger, Duck Wings, Lemon Ricotta Pancakes, and more! We always have the Hayday Coffee and mocktails flowing as well, every Saturday and Sunday 11 am - 3pm!

**Do you have a signature drink or dish?** Our Happy Hour specials are items you must try! From our specially priced Crispy Brussels Sprouts, Charcuterie Board, and Korean Chicken Wings to our hand-crafted signature cocktails like the La Zarza, Cardinal in Paradise, or our Bonfire at Sundown, you can't beat the prices.

**Why is your venue a necessary part of Atlantic City?** Cardinal is yet another addition to the revitalization project of the Orange Loop. The Orange Loop section of Atlantic City is the three beach blocks from South New York Avenue to Tennessee Avenue. Historically, Tennessee Avenue was a shopping and dining district in the city, prior to urban blight. Since the Orange Loop Project's inception this historical neighborhood went from undeveloped, run down properties to a now thriving neighborhood with restaurants, coffee shops, a yoga studio and so much more, which has breathed new life into the area, fostering a sense of community and becoming a focal point for both locals and tourists.

**What can you tell us about Executive Chef and Owner, Michael Brennan?** Like many seasoned chefs, Michael Brennan, born in Ocean City, New Jersey, and raised in Absecon, New Jersey, across the bay from Atlantic City, got his chops down on the road. Trained at the Culinary Institute of America in Hyde Park, New York, he fired his passion for hospitality in Philadelphia at legendary fine-dining temple Le Bec Fin and The Rittenhouse Hotel's LaCroix. When NYC's three Michelin-starred Eleven Madison Park came calling, Brennan instead answered the call of Southern hospitality in Charleston, South Carolina, before returning to LaCroix in Philadelphia. In 2016, he co-founded Cardinal Bistro in Ventnor, New Jersey, with his restaurant veteran father, Thomas Brennan. Since then, they reopened Cardinal in Atlantic City's Orange Loop renaissance neighborhood. Featured on Food Network's "Cooks vs Cons" and "Beat Bobby Flay," Brennan dishes on bringing his passion for food and making a difference back home.

## FROM THE HEART OF ATLANTIC COUNTY MAGAZINE

Growing up is messy, complex and an emotional rollercoaster. Being a teenager often means you get increased freedom and agency, but that's usually accompanied by difficult choices and new responsibilities. Navigating shifting priorities and emotions while staying true to yourself can definitely be challenging. The journey however is invaluable. Here are six books that beautifully illustrate that journey.

### Aristotle and Dante Discover the Secrets of the Universe by Benjamin Alire Sáenz

Aristotle is an angry teen with a brother in prison. Dante is a know-it-all who has an unusual way of looking at the world. When the two meet at the swimming pool, they seem to have nothing in common. But as the loners start spending time together, they discover that they share a special friendship—the kind that changes lives and lasts a lifetime. And it is through this friendship that Ari and Dante will learn the most important truths about themselves and the kind of people they want to be.

### Looking for Alaska by John Green

Miles Halter is fascinated by famous last words—and tired of his safe life at home. He leaves for boarding school to seek what the dying poet François Rabelais called the "Great Perhaps." Much awaits Miles at Culver Creek, including Alaska Young, who will pull Miles into her labyrinth and catapult him into the Great Perhaps. Looking for Alaska brilliantly chronicles the indelible impact one life can have on another.

### Grip of Darkness: Divinity by Kristoff Baggan

Kristoff Baggan's debut novel, *The Grip of Darkness: Divinity*, is a spellbinding exploration of the supernatural that takes readers on a thrilling journey through the mysterious village of Nueyo. Centered around Ricky, an introverted teenager who is unexpectedly thrust into a world of magic and mystery, Baggan weaves a tale that not only captivates with its supernatural elements but also delves deep into the complexities of the human condition.

## Spanning Sci-Fi, Fantasy and Contemporary, 6 Inspiring Coming-Of-Age Novels

### An Impossible Thing to Say by Arya Shahi

Omid needs the right words to connect with his newly met grandfather and distant Iranian heritage, words to tell a special girl what she means to him and to show everyone that he truly belongs in Tucson, Arizona, the only home he's ever known. Neither the school play's Shakespearean English nor his parents' Farsi seems up to the task, and it's only when Omid delves into the rhymes and rhythms of rap music that he starts to find his voice. But even as he does so, an act of terrorism transforms familiar accents into new threats. When words fail altogether and violence takes their place, what will Omid do next?

### The Invisible Life of Addie LaRue by V.E. Schwab

France, 1714: in a moment of desperation, a young woman makes a Faustian bargain to live forever - and is cursed to be forgotten by everyone she meets. Thus begins the extraordinary life of Addie LaRue, and a dazzling adventure that will play out across centuries and continents, across history and art, as a young woman learns how far she will go to leave her mark on the world. But everything changes when, after nearly 300 years, Addie stumbles across a young man in a hidden bookstore and he remembers her name.

### The Poet X by Elizabeth Acevedo

Xiomara Batista feels unheard and unable to hide in her Harlem neighborhood. Ever since her body grew into curves, she has learned to let her fists and her fierceness do the talking. But Xiomara has plenty she wants to say, and she pours all her frustration and passion into her poetry — especially after she catches feelings for a boy in her bio class named Aman, who her family can never know about. With Mami's determination to force her daughter to obey the laws of the church, Xiomara understands that her thoughts are best kept to herself. So when she is invited to join her school's slam poetry club, she doesn't know how she could ever attend without her mami finding out. But she still can't stop thinking about performing her poems. Because in the face of a world that may not want to hear her, Xiomara refuses to be silent.

# HEALTHFUL LIVING

A Weekly Guide to Health Awareness

## YOGA POSE OF THE WEEK - Tree Pose (Vrksasana)

Tree pose is an excellent introduction to balancing postures. If you feel yourself beginning to topple, you can step out of it easily. Try not to create a counterbalance by jutting your hip to the side of your standing leg. Focus your gaze on a spot on the floor, and try varying foot positions to see what works for you: Heel resting low on the ankle, on a block, or above or below the knee. Tree Pose strengthens the legs and core while opening the hips and stretching the inner thigh and groin muscles. One of yoga's biggest benefits, in general, is that it helps build better balance, which helps with any number of other physical activities.

## VITAMIN HIGHLIGHT - Vitamin C

Vitamin C, also known as ascorbic acid, has several important functions. These include: helping to protect cells and keeping them healthy; maintaining healthy skin, blood vessels, bones and cartilage; and helping with wound healing.

Vitamin C is found in a wide variety of fruit and vegetables. Good sources include: citrus fruit, such as oranges and orange juice; peppers; strawberries; blackcurrants; broccoli; brussels sprouts; and potatoes.

PPAWS (People & Puppies at Work for Sight) is a dedicated group of local families from Atlantic and Cape May Counties, which raise these amazing puppies for The Seeing Eye. Until a Seeing Eye dog is ready for training, he or she lives with a puppy raising or foster family that gives the dog love, gentle guidance, and consistent care. These volunteers nurture their puppy to accomplish its special destiny. ## Earth Day – April 22, 2024

For the past 50 years, Earth Day has been celebrated by billions of people around the globe, annually every April 22, to join together in promoting awareness for the health of our environment. Why should we continue to celebrate this holiday? Some people may view it as just another holiday, or an excuse to wear green and a flower crown, similar to St. Patrick's Day, but with serious concerns about our changing environment being studied and addressed today by prominent scientists, politicians, and young climate change activists alike, some people are adapting to more environmentally friendly ways of living — every day, not just on April 22 every year. Cue the composting, recycling, repurposing, carpooling, thrifting, and metal straws to save the turtles.

### History of Earth Day

The idea for Earth Day was originally born in 1969, when a US Senator named Gaylord Nelson, witnessed the effects of a massive oil spill in Santa Barbara, CA. He called to action all Americans to take a stand for the environment in 1970, and thousands of colleges and universities across the United States organized protests for a healthy, sustainable Earth. This included air pollution from factories and freeways, as well as the loss of habitats for animals and animal extinction. Because of these national rallies, the first Earth Day helped create the United States Environmental Protection Agency and the Clean Air, Clean Water, and Endangered Species acts into law.

Today, we have similar concerns, and unfortunately they are even messier than that original oil spill. Increasing natural disasters, extreme weather, and rising global temperatures may seem impossible for one human, let alone millions or even billions of humans, to slow down, or stop. It has been reported that coral reefs are dying, we see pictures of animals on land and in the ocean with trash in their bellies or around their body, and corporate factories and large companies around the world continue to pollute our air and our living spaces. But a small action, like picking up litter on the sidewalk that may have otherwise ended up around the neck of an animal or in the ocean, still makes an impact — a step in the right direction, and an important change.

### Earth Day Activities

- **Reduce your carbon footprint** - Get creative with new ways to switch up your commute, or a part of your daily routine. Instead of driving to your destination, carpool with friends, take public transportation, walk, skate, scooter, or ride a bike. Depending on the weather, you may enjoy this new form of travel even more than sitting in traffic.
- **Reuse, and recycle your wardrobe** - Though it may seem insignificant in the grand scheme of things, your closet and your shopping habits can actually have a negative effect on our environment. By buying thrifted or gently used outfits online, new resources aren't used to make more clothes that will eventually end up being repurposed, reused, or in a landfill. Some studies have shown that online shopping is better for the environment because it takes about 30% less resources to sell items online. Fire up your Amazon Prime app!
- **Switch up your diet** - Most people may know that food production accounts for one-quarter to one-third of all greenhouse gas emissions worldwide, and the majority of the blame falls on the meat industry. The BBC recently reported that if the entire world became vegetarian and ate no red meat by 2050, food-related emissions would decrease by about 60%. If the world went vegan instead, emissions would decrease around 70%. It may be time to try out the new 'Beyond Meat' burgers.

### 5 Facts About Earth Day That Will Blow Your Mind

1. **Record high carbon dioxide** - According to the National Geographic society, the carbon dioxide in our atmosphere has never been higher, in part potentially due to nature, and in part due to the advances we as humans have made in industrialization across the globe, since the 1700's.
2. **Less food waste means less greenhouse gas** - Many people may not know this, but the more food we waste and do not consume, the more greenhouse gasses are emitted to transport and biodegrade the waste.
3. **Climate change effects temperatures and weather** - According to the U.S. Global Change Research Program, the temperature in the U.S. has increased by 2 degrees in the last 50 years and precipitation has increased by 5%. More extreme weather phenomena have been occurring in the past 50 years -- Extreme weather in 2019 broke over 120,000 records in the US.
4. **It's a politically debated topic** - Even though 97 percent or more of climate scientists agree that climate change is likely due to human activity (according to the Earth Day Network), and nearly 200 scientific organizations globally have issued statements that agree with this view, it's still a widely debated topic in 2020.
5. **The top emitter of carbon dioxide** - China, with their human population of 1.4 Billion, is currently the top emitter of carbon dioxide, accounting for 30% of global carbon emissions, according to Earth Day Network. However, the United States, with a population around 328 Million, comes in second under China as a top emitter, at 15% of carbon emissions worldwide.

Looking for distinctive handmade jewelry? How about beautiful home giftware? Undecided about the perfect present for Mother's Day? Then, plan to visit the Pop Up Shop for a Purpose on Wednesday, May 1 from 11am to 6pm. A portion of the proceeds will support Counseling programs at Jewish Family Service of Atlantic & Cape May Counties (JFS).

There's something for everyone at this exclusive shopping fundraiser. Cash, check and charge cards accepted.

JFS takes pride in helping people in need with professional counseling services. In 2023, JFS assisted more than 7,000 children, teenagers, adults and older adults with in-office and tele-health counseling sessions as we understand the crucial role mental health plays in prioritizing someone's overall well-being.
