HEALTHFUL LIVING

A Weekly Guide to Health Awareness

YOGA POSE OF THE WEEK - Warrior II (Virabhadrasana II)

Unlike Warrior I, the hips face the side of the mat in Warrior II. The hips and shoulders are open to the side when moving from Warrior I to Warrior II.

You'll also rotate your back foot, angling your toes at about 90 degrees. In both Warrior poses, aim to keep your front knee stacked over the ankle. Your front toes face forward.

VITAMIN HIGHLIGHT - Iron

When your levels are low, your body doesn't make enough healthy red blood cells. And without them, you can't get oxygen to your tissues. Women who are pregnant or have heavy menstrual cycles are most likely to have anemia, the medical name for when you don't have enough iron in your blood. Keep up your levels with beans and lentils, liver, oysters, and spinach. Many breakfast cereals have a day's worth added. Even dark chocolate with at least 45% cacao has some!

Greater Atlantic City Concierge Association's Hot Spot: **Park Place Prime**

Submitted by: Judy Brenna, GACCA Communications Director
Catering & Events Director, Blue Dog Hospitality Group

PARK PLACE ♦ PRIME ♦

Name of venue: Park Place Prime

Where are you located? 1900 Pacific Avenue in Atlantic City

What are your hours of operation? We are open Tuesday through Thursday from 4 pm to 9 pm, Friday & Saturday from 4 pm to 10 pm, and we are closed Sunday and Monday.

Parking directions/tips: Park in the Bally's Parking Garage. Parking can range from \$10 to \$25 or free with Legend, Superstar and Star cards. Spend \$50 or more on dinner at Park Place Prime and self-park for free!

Tell us a little about yourself? Park Place Prime, a contemporary steakhouse that honors the casino's rich history and namesake, Bally's Park Place. This nostalgic tribute offers guests an unparalleled dining experience, featuring gourmet cuisine that will satisfy even the most discerning food enthusiasts. The dining room has been transformed with a blend of classic steakhouse design and contemporary finishes, creating a luxurious and inviting ambiance.

What does your venue specialize in? The menu showcases a selection of hand-cut prime steaks, known for their exceptional quality and flavor, as well as a variety of outstanding seafood options. The bar and lounge area offer a modern cocktail experience, with a robust wine list and a custom crystal chandelier adding an elegant touch.

What is the current reason one MUST come to see you? Two things. First, our Happy Hour! Guests can also enjoy a delightful Happy Hour with discounted cocktails and a delectable menu, featuring \$2 clams and oysters on the half shell, truffle fries, wagyu beef sliders, calamari, just to name a few! Second, our private dining room. Park Place Prime is the best place to host a private event, featuring a private dining room to accommodate up to 30 guests. Whether it's a birthday party, bachelor/ette party or work gathering, we can take care of it!

What is your secret favorite that the crowds have yet to discover? There is nothing like a carefully crafted cocktail that enhances the sense while enjoying one of steaks. Our selection of Signature Old Fashioneds are carefully constructed to elevate your dining experience. The Field offers Wagyu Washed Woodford Rye, Koji, and Angostura Bitters, which pairs beautifully with our Tomahawk, with Calabrian Chili Butter, while our Island Old Fashioned, made of Diplomatico, Guava, P.O.G bitter, pairs great with our Prime Ribeye and Chimichurri.

Do you have a signature dish? We are taking part in Atlantic City's Restaurant week, from October 8th through 11th, offering a 3 Course Dinner for \$40.24 per person. Choose from our Signature Caesar Salad, Crab Bisque, or Nueske's Butcher Cut Bacon to start, Filet Mignon, Scottish Salmon, or Roasted Chicken for entrée, and then sweeten your palate with either Homemade Gelato or Bally's Famous Cheesecake.

Why is your venue a necessary part of Atlantic County? Park Place Prime aims to provide an unforgettable dining experience that reflects the highest standards of excellence, paying homage to Bally's Atlantic City's rich history. Offering an elevated dining experience helps to draw attraction, and boost tourism to not only Bally's, but this city.

If you could only describe your venue in 5 words or less, what would these words be? Nostalgia, Sophistication, Sumptuous, Elegant.

National Food Is Medicine Day September 14, 2024

National Food is Medicine Day is celebrated in the United States every year on September 14. Health and food organizations use the day to raise awareness about the barriers to good food in the U.S. The campaign points out that many low-income families always have to deal with obstacles that make it difficult for them to get the healthy foods they need.

The goal of bringing these challenges to the forefront on National Food is Medicine Day is to generate enough buzz to encourage government and private sector entities to collaborate on developing solutions that make it simpler for more people to get healthy food.

History of National Food Is Medicine Day

Malnutrition is a threat that is getting worse quickly. It is a global problem on the same level as poverty and climate change. The World Committee on Food Security has said: "malnutrition in all its forms, including hunger, lack of micronutrients, overweight, and obesity, is a major problem not only in developing countries but also in developed countries." Malnutrition includes everything from starvation to being overweight.

The main causes of the global burden of disease today are poor diets and the health risks that come with them. Diets that aren't very good either don't have enough of certain vitamins, minerals, and fiber, or they have too many calories, saturated fats, salt, and sugar.

In 2010, 10% of the world's disease burden was caused by unhealthy eating and lack of exercise (measured as the number of years lost due to ill health, disability, or early death). By 2015, six of the top 11 global risk factors, such as being undernourished, having a high body mass index (B.M.I.), and having high cholesterol, were related to diet.

Obesity is usually linked to eating too much, but it can also be caused by not getting enough of certain nutrients. Between 1990 and 2010, the number of adults in sub-Saharan Africa with a high B.M.I. tripled. Countries in the Pacific, the Caribbean, the Middle East, and Central America all have very high rates of overweight and obese adults.

So, all countries around the world need to take action to deal with undernutrition, lack of micronutrients, and overweight and obesity at the same time. On National Food is Medicine Day, the Food Equality Initiative encourages people to join the movement by giving money to groups that help people get access to healthy food. Subsidizing the extra costs of gluten-free food helps bring down medical costs, lowers the risk of food-related illnesses, and makes it easier for low-income families to eat healthy on a budget.

3 Interesting Facts About Food You Should Know

1. The popsicle was invented by a kid - It is rumored that in 1905, 11-year-old Frank Epperson left a mixture of soda and water in a cup outside overnight, which froze and became a newfound treat.
2. Raw oysters are eaten alive - Oysters deteriorate so fast that chefs have to serve them very quickly — while they're still alive.
3. Potatoes absorb Wi-Fi signals - Because of their high water content and chemical makeup, potatoes absorb and reflect radio and wireless signals.

Why National Food Is Medicine Day is Important

- It creates awareness about healthy diets - With busy schedules and endless eateries on every corner, hardly anyone bothers about a homemade meal anymore. Food is Medicine Day helps to bring back the mood of homemade meals. It's also a good time to highlight the risks associated with an excessive intake of junk food.
- It drives attention to the plight of low-income families - For families that depend on weekly paychecks to survive, it's difficult to maintain a healthy diet amidst the constant price surges of staple food. This day presents an opportunity to outline these challenges and search for ways to make healthy food more affordable.
- It highlights the challenges of people with food allergies - People with food allergies often have to buy special versions of food to stay healthy. And these versions are usually more expensive than the normal versions. This day helps to shed some light on the plight of people in this category and how to reduce the burden of getting these special foods.

Why Donate Blood?

You don't need a special reason to give blood. *You just need your own reason.*

- Some of us give blood because we were asked by a friend.
- Some know that a family member or friend might need blood some day.
- Some believe it is the right thing to do.

Whatever your reason, the need is constant and your contribution is important for a healthy and reliable blood supply. And you'll feel good knowing you've helped change a life. To learn more, visit www.redcross.org

SYLVIA APONTE & Warren

Sylvia Aponte of Bayamón, Puerto Rico, was the first blind person to graduate from the Conservatorio de Música de Puerto Rico with a bachelor of music in voice performance. She went on to receive a master's of music from the University of South Carolina, and now is pursuing her Ph.D. in English linguistics from the University of Puerto Rico. She is fluent in Spanish, English, and French, and also speaks some Italian and German. "When you study opera, it helps to speak the language," she says.

The picture shows Sylvia smiling as she crouches down to hug her second Seeing Eye dog, a black Labrador/golden retriever cross named Warren. The lawn of The Seeing Eye campus is visible through the rails of a black metal railing behind them.

Sylvia says a Seeing Eye dog really helps her get around the crowded streets of Puerto Rico. But the benefits go beyond navigation and independence.

"Having a Seeing Eye dog with me not only makes me feel safer, but also somehow... cooler! I love my dog and having him with me. These dogs change the way you feel about yourself. It's about independence and mobility, but also, having a dog is fun and exciting! And just because you're blind doesn't mean you shouldn't have some fun and excitement in your life!" ■

Pet of the Week

BUFFY

Meet Piper! She is a 4 month pug mix. We know her mom was a pug but we are not sure what dad is. We guess she will be about 40- 50 pounds full grown. Piper is fun energetic puppy looking for a home that is prepared for her energy. She seems to get along with other pets but can be a little too much for other dogs due to her energy level.

PPAWS - People & Puppies at Work for Sight "MEET THE PACK!"

THE PUP-ULTIMATE CELEBRATION OF OUR AMAZING PUPPY RAISERS!

The recently held this year's Family Day, which presents a unique opportunity for our raisers to tour our campus, speak to and learn from Seeing Eye staff from all departments, and hear from our graduates. We had an incredible turnout and cannot say thank you enough to all of our puppy raisers who continue to help us pursue our mission.

If you want to learn more about joining The Seeing Eye puppy raising family, be sure to check out <https://seeingeye.org/puppy-raising/>

Photo Descriptions: The first image shows Seeing Eye instructor Jacqui Archer posing with a German shepherd with mainly black fur on the walking path at The Seeing Eye. The second photo shows a group of high school puppy raisers holding their scholarship awards. The third image shows Jacqui giving a training demonstration with the same German shepherd in front of various obstacles as a group of puppy raisers look on. The fourth image shows two Seeing Eye graduates talking to a group of puppy raisers on the student patio. The final image shows a line of puppy raisers getting ice cream from a vintage-style ice cream truck in front of the main building of The Seeing Eye's campus.

PPAWS (People & Puppies at Work for Sight) is a dedicated group of local families from Atlantic and Cape May Counties, which raise these amazing puppies for The Seeing Eye. Until a Seeing Eye dog is ready for training, he or she lives with a puppy raising or foster family that gives the dog love, gentle guidance, and consistent care. These volunteers nurture their puppy to accomplish its special destiny. If you are interested in raising a puppy for The Seeing Eye, call Peter at (609)804-8774 or visit seeingeye.org/raise for info.

The American Red Cross graciously donated a retro-fitted sprinter van to Jewish Family Service of Atlantic & Cape May Counties (JFS) as part of a partnership to build more resilient communities. The custom-designed van will provide JFS with a mobile outreach office to access saturated urban areas, like Atlantic City, as well as some rural areas. The sprinter van features Wi-Fi compatibility, two office style areas for staff to conduct intakes, cushioned leather seats, wooden storage cabinets, and more.

"We are grateful the American Red Cross selected our agency to receive this custom van," said Ann Thoresen, JFS Chief Operating Officer. "Knowing the work our staff performs throughout the county, this JFS mobile access center allows us to have a more prominent presence at community events and health fairs as well as the ability to access harder to reach locations on the outskirts of our area."

This partnership is part of the national Red Cross Community Adaptation Program, which is providing enhanced support in select communities across the country that are at high risk for extreme weather and face socio-economic challenges. The program focuses on enhancing local nonprofits specializing in health, hunger, and housing to strengthen their programs before a disaster and to serve families hit hard by the new increasing state of climate disasters.

"We are thrilled with this partnership which provides Jewish Family Service with the specialized van, enabling them to reach and serve more people in the community now and during times of disasters," said Rosie Taravella, CEO, American Red Cross New Jersey Region. "Especially as the climate crisis worsens, access to health and mental health care is so important, and together, we can make a greater difference in the lives of those we jointly serve."

For more information on JFS programs and services, visit jfsatlantic.org. For more information about American Red Cross services, visit redcross.org.

Have you survived the impossible? A freak accident, a near-death experience, a danger, or a diagnosis you didn't expect to see the other side of? So many people experience the unimaginable and continue to go on living — but not without being forever changed by what they've survived.

In these memoirs, everyday people recount stories of their brushes with death, danger, and the aftermath. Forever changed by traumatic events, these individuals have emerged with a new outlook on life, appreciation for the people who helped them, a newfound strength and an overwhelming joy for being alive.

I Am, I Am, I Am: Seventeen Brushes with Death by Maggie O'Farrell

The bestselling author of *Hamnet* recounts over a dozen encounters with death, encounters she never expected to survive — but miraculously did. From childhood illness to a dangerous stranger on a hiking trail, to car accidents, robberies, and brushes with illness and death of loved ones, this author has experienced some very low lows.

Through it all, she has gained a renewed lens through which to look at her life — as something full of beauty, wonder and surprise. As her daughter faces a daily struggle with a deadly condition, Maggie O'Farrell must remain resilient and attentive, determined to keep on living in the face of all she has survived, despite the fear she feels on behalf of those she loves.

Hard Bargain: What Life-Altering Experiences Taught Me About Faith, Friendship, and Family by Donald G. Denihan with Jon Land

For Donald Denihan, it was supposed to be the fishing trip of a lifetime. Instead, it ended up nearly costing him his life in a hard bargain he made with the sea. The book is best described as part gripping true adventure story and part self-reflection on how being on the doorstep of death helped him get a better grasp on what is really important in life.

Near-death experiences were nothing new to this successful real estate entrepreneur, though. At the age of 16, a hunting accident had nearly cost him his foot. Then at the age of 35, he was struck by the same aggressive form of prostate cancer that had killed his father. A decade later, one ill-fated boat trip confronted him with his own mortality yet again.

Through a long night of pounding rain and storm-swept winds, Donald faced off against everything the sea could throw at him. With the odds of survival dimming by the moment, his desperate efforts at sea were mirrored on land by the resourcefulness of friends and family who stop at nothing to save him before it's too late.

In My Time of Dying: How I Came Face to Face with the Idea of an Afterlife by Sebastian Junger

This story might not be about surviving the wild, a natural disaster, or a dangerous attack — but it is about surviving, despite the odds, and how that changes a person. Life as a war reporter brought Sebastian Junger close to death several times. But it wasn't until one summer day in 2020 when severe pain sent him towards death, that he was visited by his late father, who invited Junger to join him in death.

An aneurysm that should have killed Junger instead sent him on a philosophical and scientific journey to examine life — and what comes after. Diving into the personal and mystical, Junger explores what it meant to have a life-changing brush with death, how it shaped his views of spirituality, and what might lie beyond in the great unknown.

Miracle in the Andes: 72 Days on the Mountain and My Long Trek Home by Nando Parrado

Very, very rarely is there a survivor in a plane crash, never mind multiple survivors. This is the story of Nando Parrado, one of the 16 survivors of Uruguayan Air Force Flight 571. The plane was chartered by a rugby team en route to Santiago, Chile, for a game when the pilot mistook his descent and crashed into the Andes mountains. While there were many survivors initially, the group was stranded on a glacier at nearly 12,000 feet above sea level with almost no supplies and no means of summoning help.

Over the course of the next 72 days, many would succumb to their injuries and freezing temperatures — and a handful of others, lead by Parrado, would muster the courage to trek 45 miles over the frozen mountain for help. It's an incredible story of miracles mixed with tragedy, but most of all, the human will to survive.
